War In Europe Moves Swiftly In Closing Stages

Imminence Of Peace Takes
Leading Role In World
Interest Of Day's
Events

MANY NEW RUMORS ARE CIRCULATED

By J. C. OESTREICHER

Piecemeal surrender of Germany's remaining armed forces along the Ramshackle, disorganized lines so long anticipated by competent observers marked the closing stages of the war in Europe today.

Despite a momentous thrust by the United States Seventh Army through the Brenner Pass for a junction with other Allied troops in Italy and a report that British forces have crossed the Nazi frontier in pursuit of the Nazi rabble, actual military developments played a secondary role to the imminence of peace.

No Let Up In Pressure

There was no let-up in the overwhelming pressure of Allied military strength against tattered German units that have not yet surrendered.

But the war in general moved almost out of the mopping-up stage to one of accepting, initialing and formalizing capitulation by German armed groups.

The whole situation, balanced on the tenuousness of awaited official announcement that Nazi Germany has come to an end, had to be judged from fragmentary reports and unsubstantiated rumors.

This, however, was the picture as of May 4, 1945:

1—The Germans, according to broadcasts from Oslo, gave up the ghost in Holland and announced that a truce had been effected on all fighting fronts in the Netherlands, including Amsterdam, Rotterdam and the Hague.

Report Fleet Surrenders

2—Reports in Paris said that what remains of the entire German high command is being evacuated to the east.

While no official V-E Day has been announced, a lot of folks in this locality are inclined to believe that the real end of the war should be considered as during the past few days, when Nazi resistance apparently collapsed everywhere and so many great events transpired that indicated the unofficial end of the war.

In connection with the Seventh War Loan drive, the Pennsylvania War Finance Committee announces that a series of special days for promotion of bond sales has been set aside. Included are:

Mother's Day, May 13—B-Day minus 1.

B-Day, May 14—opening of the community drive.

"I Am An American Day", May 20.

National Maritime Day, May 22.

Memorial Day, May 30.

Midway Victory, June 4.

Normandy Invasion Day, June 6.

Flag Day, June 14.

Father's Day, June 17.

Thirteen Hundred Day, the 1300th day of the war since Pearl Harbor, June 28.

Wind-up Day, June 30.

And, of course, V-E Day, should it come during the drive.

Nazi Field Marshal Surrenders To Yanks

By LARRY NEWMAN
(U. S. Staff Correspondent)

WITH THE U. S. THIRD ARMY, May 4.—Nazi Field Marshal Ewald Von Kleist, commander of the Wehrmacht army group A, and planner of the German invasion of Poland in 1939, surrendered today to the U. S. 26th Infantry Division.

Field Marshal Von Kleist drove into American lines in a natty automobile accompanied by his wife and his military aide, Capt. Von Seydlitz, a cousin of the famous German general.

Von Kleist's car held 25 handbags and plenty of gasoline if he had wanted to escape. But he said he had decided to "surrender to the

Americans now so I might be spared the embarrassment of being captured later, in the presence of common German soldiers in retreat."

Uses Many Drugs

The 63-year-old field marshal, credited with smashing the Maginot Line, was trembling from the use of so many drugs. His belongings were found crammed with hypodermic needles and morphine.

About Hitler, Von Kleist said: "I believe only what I read in the German newspapers."

At first he refused to surrender to an ordinary American private, and demanded that an officer come (Continued on Page Two)

Admiral Nimitz Reports 5,551 Casualties In Fleet In Okinawa Area

By GEORGE McWILLIAMS
(U. S. Staff Correspondent)

GUAM, May 4.—United States Tenth Army forces on Southern Okinawa today continued their drive to crack stubborn Japanese defenses protecting the island's capital city of Naha and the vital Yonabaru airfield.

New developments in the Okinawa campaign were reported in Fleet Admiral Chester W. Nimitz' communique which also revealed that U. S. Pacific Fleet has suffered 5,551 casualties in the Okinawa and associated operations as of May 2.

Of this number 1,131 were listed as killed, 2,816 wounded and 1,604 missing.

Limited Advance

"A limited advance" by the First Marine division on the right flank of the American line on Okinawa, was the only gain reported by Nimitz.

In other sectors lines remained unchanged as the Yanks, comprising elements of five divisions, faced artillery, mortar and small arms fire from the network of entrenched Japanese defenses.

Allied Forces Make Progress On Burma Front

KANDY, Ceylon, May 4.—(INS)—Allied land and sea forces continued to make good progress on the Rangoon front in Burma today despite torrential rains.

Southeast Asia Command Headquarters said that stores were being rushed ashore from beachheads secured yesterday and large Japanese forces west of Rangoon have been cut off.

Allied aircraft dropped medical supplies to Allied prisoners of war at the Rangoon central jail and at Insein jail on the outskirts of the city.

Russian Troops Hunt For Proof Of Hitler's Death

Probe Burning Wreckage Of Reich Chancellery In Berlin—Describe Ruins

MOSCOW, May 4.—(INS)—Russian troops in Berlin probed the burning wreckage of Hitler's reich chancellery today for some proof that the Nazi leader is dead or alive, hampered by heavy clouds of smoke and soot which billowed through the nearly gutted buildings.

Disorganized water facilities made it difficult if not impossible to check the raging fires and the roof of the assembly hall of the Reichstag collapsed.

Frontline dispatches from Berlin did not say if any evidence of whether Hitler is dead or alive was found in the reich chancellery, but it seemed probable that they were driven from the building before a thorough search could be made.

Building On Fire

The building was on fire, the reports said, and Soviet units were forced to leave by a fire escape after a hasty tour through smoke-filled rooms and corridors so stifling that they were forced to wear gas masks.

Soviet soldiers described the building as a gray, gloomy edifice that was "smoking furiously." The windows were blocked with piles of books apparently snatched from the shelves of Hitler's library to act as emergency barricades.

The muzzles of machine guns projected from between the books and the German gun crews sprawled dead around them.

Heaps of Iron Crosses

Heaps of iron crosses littered the floor. Heavy cases filled with iron crosses with the oak leaf cluster were used to barricade the main entrance.

When Russian troops burst into Hitler's office flames were beginning to make the floor almost too hot to walk on.

Massing For All-Out Assault On Czechoslovakian Capital Says Moscow Report

REDS IN NEW GAINS IN NORTH GERMANY

By NATALIA RENE
(U. S. Staff Correspondent)

MOSCOW, May 4.—Russian forces massed today for an all-out assault on the Czechoslovakian capital of Prague after other Soviet troops linked up with the British in northern Germany to seal off German holdout garrisons in Denmark.

Premier Marshal Joseph V. Stalin announced that troops of the Fourth Ukrainian army under Gen. Andrei I. Yeremenko had seized the important mining town of Cieszyn (Teschen), as Russian attention shifted south.

Only the pocket of German resistance west of Berlin and east of Magdeburg on the Elbe river remains to be cleaned up by the Soviets in the northern German sector.

Largest Nazi Group

Nazi forces in western Czechoslovakia and parts of Austria constituted the largest group of German holdout troops left on the European continent.

Soviet bombers smashed the principal roads leading to Prague, which the Germans declared was a "hospital city." Soviet spearheads long inactive on the northern and southern borders of the Nazi pockets stabbed experimentally into German defense preparatory to full-scale attacks.

The Russian high command reported new gains around Bruenn on the southern Czechoslovakian front where six towns were taken. (Continued on Page Two)

Yanks Enter Capital City On Mindanao

By JOHN CASHMAN
(U. S. Staff Correspondent)

MANILA, May 4.—American forces today culminated one of the longest sustained infantry drives in the history of the Philippine campaign by capturing two east-coast airbases on Mindanao and entering Davao, the capital city.

Gen. Douglas MacArthur announced the new gains in the campaign to wipe the Japanese from Mindanao and also revealed that Australian troops, far to the southwest, have capitalized on their successful landing on Tarakan Island, off northeast Borneo, by sweeping into the outskirts of the island's main city and edging up to the airfield.

Land Supplies

Landing of supplies for the advancing Australian troops of Tarakan continued unimpeded by Japanese air opposition. In co-ordination with the ground threat to Borneo, rich in oil and rubber production, planes of MacArthur's command pounded enemy held airbases on the big island and also sank 10 Jap freighters, four coastal vessels and five loaded barges in adjacent waters.

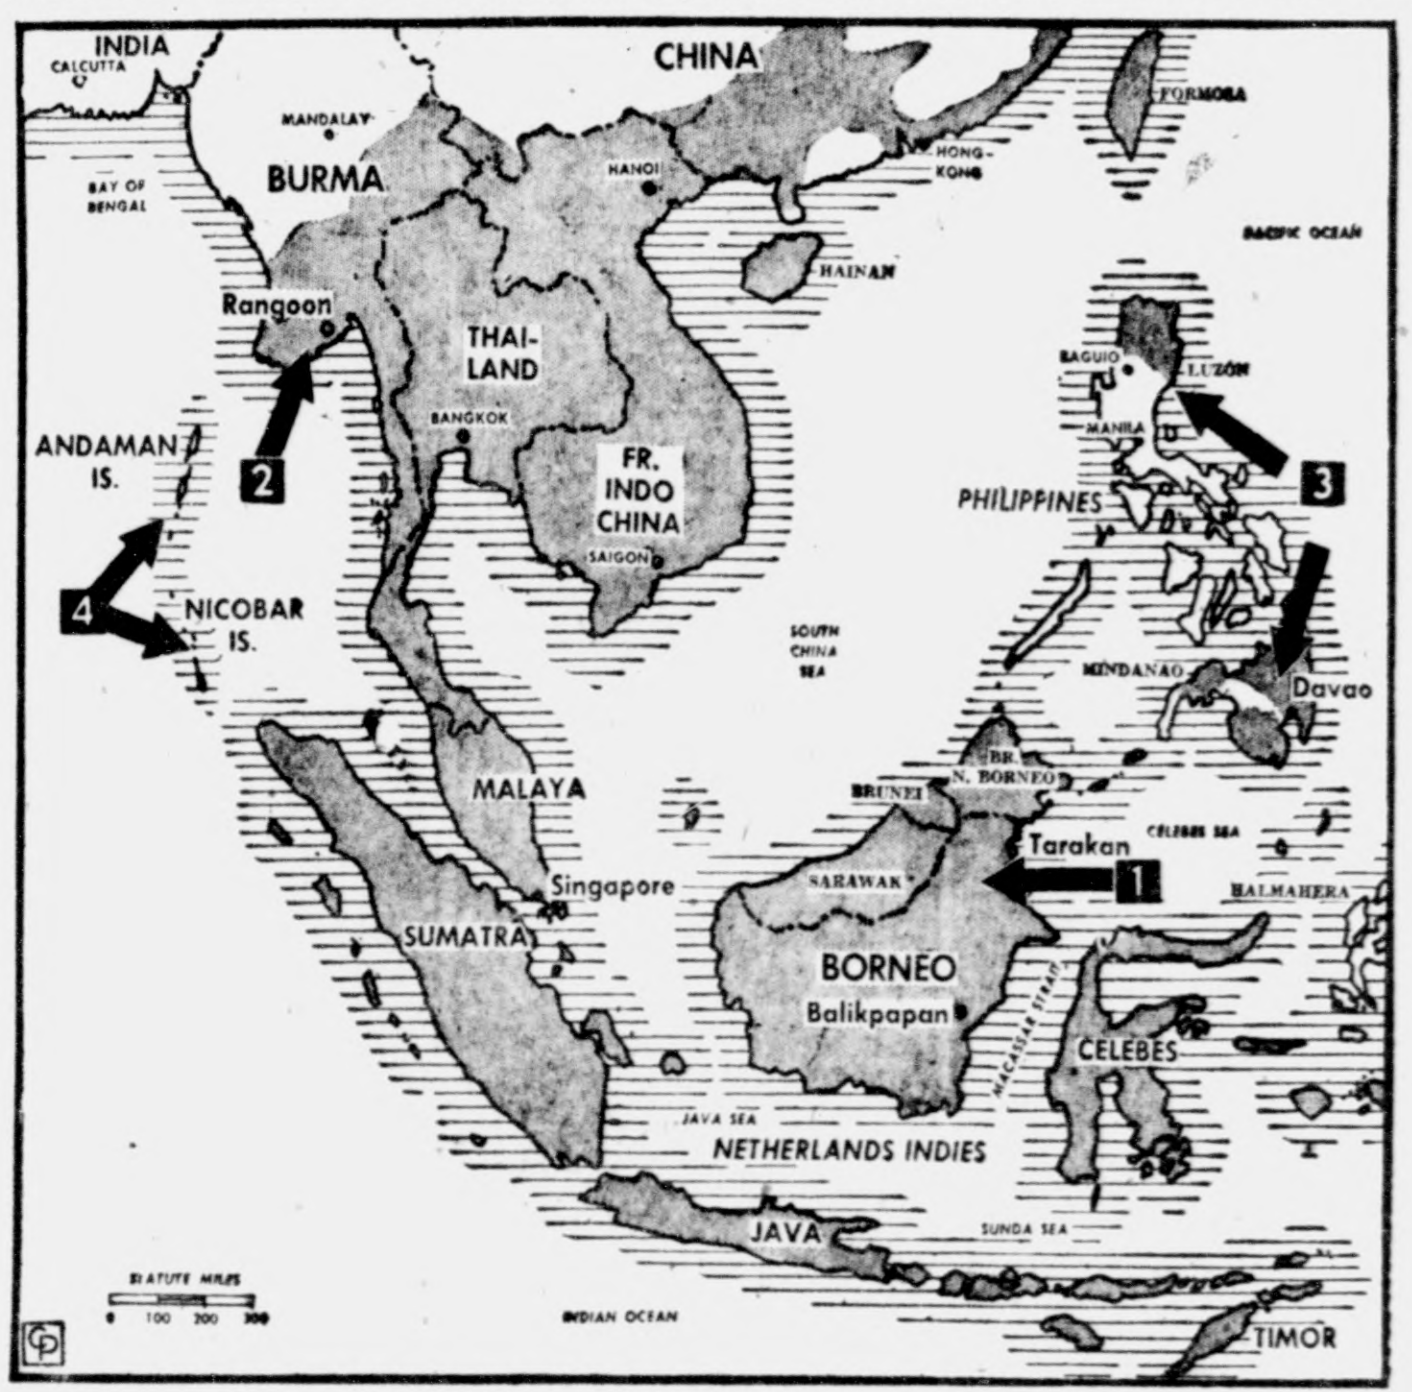

American gains on Mindanao were highlighted by the performance of Maj. Gen. R. E. Woodruff's 24th Division, which after landing at Parang completed the 150-mile drive to Davao. The American troops were hampered all along the route by weakened or demolished bridges and accomplished a small miracle in keeping supplies and artillery apace with the fast-moving infantry.

Main and Libby airbases in the Davao area, were overrun by the Americans, who were given close support in their victorious drive by United States aircraft.

Will Now Accept Messages In Italy

PITTSBURGH, May 4.—(INS)—G. T. Harris, Pittsburgh superintendent of the Western Union Telegraph Company today announced that for the first time in five years, personal and business international messages may be sent to Italy.

WAR AGAINST JAPS STEPPED UP WITH NEW ASSAULTS

As the war in Europe draws to a close, the United Nations step up the fight against Japan in the far Pacific. Following announcement of an invasion of Borneo (1) comes word that the British have captured Rangoon (2). Meanwhile, the Yanks are closing in on Davao (3), capital of Mindanao, in the southern Philippines, and British warships of the East Indies fleet have been shelling the Car Nicobar and Andaman islands (4). Approximately 5,000 Allied troops spearheaded the invasion of Borneo, where landings were made at Tarakan.

Jap War Correspondent Is Captured In Pacific

By FRANK ROBERTSON
(U. S. Staff Correspondent)

MANILA, May 4.—The first Japanese war correspondent to be captured in the Pacific theater today is in an internment camp in Manila.

He surrendered recently to American first cavalry division troops in Laguna province after escaping from Manila the day after United States forces entered the Philippine capital.

The Nip newspaperman, a Domei agency correspondent, must remain unidentified but today I was given the opportunity of interviewing him and I chided him on the dishonor he had brought on his profession with his Baron Munchausen tales.

Observe V-E News In Respectful Way

Mayor Asks Saloons To Close When Sirens Sound Official News; Churches Open

Mayor John F. Haven and council have decided that, when authentic information of V-E day arrives the OGD sirens played throughout the city will sound for several minutes to break the news officially here.

The mayor also stated that the proclamation he issued April 13 will be effective. In brief, he asks that citizens observe V-E day in a manner worthy of the respect of the armed forces. He also requests that all churches be kept open for prayer.

His Honor's proclamation requests that all drinking establishments and clubs close when the V-E news is received authentically.

"If the report arrives during the day I expect them to close from that time on until midnight. If it comes near midnight, I shall expect them to close from that time to midnight also the next day," the proclamation stated.

Explosion Might Have Been Meteor

PHILADELPHIA, May 4.—(INS)—The "flash" and "explosion" which rocked the Middle Atlantic states today might have been a huge meteor, a scientist reported.

Dr. Roy K. Marshall, spokesman for the Franklin Institute, said the weird, unexplained flash and noise "probably was a bolide, the largest kind of meteor."

The noise was caused either by the explosion of the huge mass, or by the sound of the air piling up in front of the huge fireball, Marshall asserted.

Polish Problem May Be Settled At Conference

By WILLIAM K. HUTCHINSON
(U. S. Staff Correspondent)

SAN FRANCISCO, May 4.—High official sources at the San Francisco conference are expressing new hopes today that the "Big Three" will announce a settlement of the Polish problem within 72 hours to make Poland the fiftieth United Nation.

The "Big Three" deliberations have entered their final phases. It is now or never.

May Endanger Plans

All involved factions are aware that failure to solve this problem may endanger Allied plans for occupation of fallen Germany and its satellite nations. In other words, if Russia, Britain and the United States cannot satisfactorily execute a solemn pledge for a mutually desirable government in Poland, sharp doubt will be thrown on their ability to carry out other pledges, no more sacred, for mutual administration of captured Nazi territory.

This Polish problem therefore has suddenly assumed tremendous magnitude. It is no secret that messengers about Poland have flowed from San Francisco to Washington, London and Moscow, and replies have come back in code.

German Radio Says Hostilities End In Holland

BULLETIN

PARIS, May 4.—(INS)—German radio broadcasts today announced complete cessation of hostilities in Holland amidst persistent reports that Nazi Grand Admiral Karl Doenitz is attempting to negotiate a general surrender at Copenhagen.

Headquarters of Gen. Dwight D. Eisenhower had no confirmation of the German reports that a "truce" has been effected in Holland, ending hostilities at Amsterdam, Rotterdam and The Hague.

PLEDGE COOPERATION

WASHINGTON, May 4.—(INS)—President Truman received a pledge of complete cooperation today from the United States Chamber of Commerce and American business as a whole.

Eric Johnston, president of the U. S. chamber, and other officers of the organization, conferred with the chief executive and brought word to him of their approval of the management-labor charter.

Seventh Army Pours Through Brenner Pass

Salzburg, Innsbruck And Other Enemy Citadels Are Taken In Advance

TEN MILES FROM BERTHESGADEN

By JAMES L. KILGALLAN
(U. S. Staff Correspondent)

PARIS, May 4.—American Seventh and Fifth army troops linked forces in northern Italy today a few hours after Lieut. Gen. Alexander M. Patch's fighting men poured through the Brenner Pass, swiftly conquering the few dazed Fascists who dared to oppose them.

In the Seventh's advance, it captured Salzburg, Innsbruck and other enemy citadels and thrust to within 10 miles of Berthsgaden, once the mountain fortress of Adolf Hitler, supreme headquarters announced.

British Turn Into Denmark

Far to the north, all fighting ceased on the Kiel peninsula in northern Germany and frontline dispatches said the British Second Army was turning into Denmark in pursuit of panic-stricken Nazi remnants.

Headquarters spokesmen said the Germans in the north were fleeing to Denmark and Norway by every means at their disposal.

The German radio in Norway meanwhile informed its listeners that a truce has been arranged in Holland, affecting such cities as Rotterdam, Amsterdam and The Hague.

The Nazi military debacle mounted hourly, with headquarters disclosing that half a million Germans north of the Elbe river had been taken prisoner in the past two days.

Innsbruck Also Wants To Give Up

WITH THE U. S. SEVENTH ARMY, May 4.—(INS)—A German battalion and 500 fighting civilians, the only forces inside Innsbruck, have informed the advancing 103rd Division of the U. S. Seventh Army that they want to surrender.

Yet in between is another German battalion which wants to go on fighting. Since it would be more than a major operation to bypass this battalion in the mountain approaches it will have to be attacked frontally—and possibly in the rear by the people in Innsbruck.

The Americans are at Zerl, 12 miles from the city.

The Third Infantry Division driving down the motor road south of Chiemsee, are only 25 miles from Berthsgaden.

Offer Strategic Bases To U. S. In The Netherlands

Report Dutch Offer Netherlands Bases To Prevent Future Japanese Aggression

By JOHN A. REICHMANN (U. S. Staff Correspondent)

WASHINGTON, May 4.—Future use of bases in the strategic Netherlands East Indies today became the center of interest as it was reported from Eindhoven, Holland, that they have been offered to this country to prevent future aggression by Japan.

Future use of bases in the Indies is a subject under discussion at San Francisco as part of the colonial meeting being held along with the general security conference.

Must Have Bases

Several days ago Dr. Eelco Van Kleffens, Dutch foreign minister and head of the Netherlands delegation, made clear that his government favored an arrangement, on a "reciprocal basis" whereby the United Nations might establish bases there. This is believed to be what the Eindhoven report sprang from.

The Van Kleffens report on bases was generally overlooked in the welter of war news but aroused considerable interest abroad, particularly as he also said that this country was not concerned especially with what was done with the captured Jap islands as long as they are not returned to Japan.

In this country greatest interest has attached to American possession of those Jap mandated islands which will be needed for its own defense against a repetition of Pearl Harbor.

The correspondent also claimed that Jap aircraft production had topped the 2000 monthly mark last September.

No Suicide Volunteers

The Domei man had an enlightening word to say about the kamikaze boys—Nip suicide pilots. "These pilots do not volunteer," he said, but are named for missions by commanders and as "encouragement" are given only enough gas for a one-way trip to their target.

The Nip newsman said he expected the war to be a prolonged affair since Jap soldiers fighting on Luzon two weeks ago still believed the Americans were being drawn into a gigantic trap.

American propaganda is ineffective, he said, because the Nip soldiers have been trained not to believe it.

He said that he was one of six Domei men working out of Manila and that after the war he expected to return to Tokyo to take care of his young brother. I asked him if I would be given the chance to look after my young brother if I were captured by the Japs.

He looked somewhat embarrassed and I sent him back to his quarters feeling ashamed of himself—I think.

U. S. FORCES HIT HEAVY BLOWS AT OKINAWA JAPS

(Continued From Page One)

Correspondent Julian Martt, in a front-line dispatch, reported that one enemy-held hill had been transformed into a massive fort and was under attack from all sides, by American tanks and artillery.

Demolition troops planted TNT in every opening they could reach, Martt reported. In some cases as much as 500 pounds of dynamite were dropped in one hole and the whole ridge line rocked with detonations.

Jap Aircraft Attack

"Nimitz" communicate reported that Jap aircraft made another abortive attack on American shipping lying off Okinawa with the result that seventeen enemy planes were shot down. Two light American vessels were sunk by the Jap raiders.

Planes of the Pacific fleet continued to smash at airfields near Okinawa, hitting Jap installations in the Sakishima islands, southwest of the Ryukyus and also raiding Kanyo airfield on Kyushu.

proved inclusion of three prominent London Poles in the Warsaw (Lublin) government. The trio reportedly are Stanislaw Mikolajczyk, former premier, Jan Stanczyk, minister of social welfare, and Ludwig Grosfeld, former finance minister in the exiled Polish government. Their appointment to responsible cabinet posts in the Warsaw government will go a long way toward solving the Polish question.

Heads of smaller states meanwhile continued to direct the technical commissions and committees already engaged in the monumental task of raising the structure for a new world security order. Two ticklish questions were raised almost immediately before the judicial commission headed by Dr. Carracciolo Parra Perez, of Venezuela. They touched the problems whether sanctions and compulsory arbitration shall be made a part of the new world court system.

Two-Thirds Rule

Senator Henri Rolin, Belgian president of the general provisions commission, meanwhile injected the two-thirds issue into the conference. He simply ruled all decisions by his commission would require a two-thirds majority until a final ruling has been made by the superior steering committee. The "Big Four" originally proposed the two-thirds rule but have not yet pressed it to a decision. Some small nations oppose it because it would be more difficult than to amend the Dumbarton Oaks formula.

The "Big Four"—Secretary of State Edward R. Stettinius, British Foreign Secretary Anthony Eden, Russia's V. M. Molotov and China's T. V. Soong—held further conferences on amendments to the Dumbarton Oaks formula for the new world order. They hope to agree on one set of amendments and present a united front in future parliamentary proceedings.

The "Big Five" also met with Foreign Minister Georges Bidault in the fifth role—seeking an agreement on trusteeships.

The British plan was given the other conferees. British spokesmen forecast an early agreement among the five powers. The British said their plan was not far different from the American plan, which calls for international trusteeships of non-strategic areas and American occupation of captured Japanese islands in the Pacific indefinitely under the new security order's jurisdiction.

3—A presumably independent government in Denmark, said to be operating in cooperation with Gen. Dwight D. Eisenhower, broadcast an appeal to all German civilians and military officials in the country to capitulate.

4—Continued German military resistance in the Innsbruck area of Austria was being dealt with by American Third Army troops.

Occupied Berlin

5—Soviet forces occupied all government buildings in Berlin, found them burning, smoke-filled shambles and searched in vain for some trace of Adolf Hitler, his corpse or his ashes.

6—Grand Admiral Karl Doenitz, self-proclaimed successor to the unlocated Fuehrer of the Reich, was silent. He might either be attempting to negotiate a general surrender at supreme headquarters or to find for himself some nook of obscurity along with other Nazi leaders who have so suddenly disappeared from the scene.

Copenhagen already was in telephonic communication with the rest of the world by way of Stockholm, the city apparently was calm but tensely expectant that before many hours have passed it will join Rome, Paris, Brussels and even Berlin in the list of oppressed capitals at last liberated from the scourge of Nazi tyranny.

Must Not Ignore Hunger in Europe

WASHINGTON, May 4.—A series of clarifying statements has opened the way to positive action to straighten out our dwindling food supply so that it will be possible to send help to liberated Europe.

First came Samuel I. Rosenman's penetrating report on the grave need of the liberated countries. As released by the White House in summary, it was a statesman-like document which should leave no one in doubt as to the consequences of ignoring the hunger existing in Europe today.

It is not what may happen next week, or even next winter, as Rosenman said, the future peace of Europe depends largely on the restoration of the economy of France, Belgium and Holland. Nothing that is done at San Francisco will have the slightest meaning if the present confusion and hardship deteriorate into chaos and destitution.

Even in abbreviated form as released to the press, the Rosenman report makes clear the way in which the entire economy of Europe is tied together. Coal is one of the most important keys to the recovery of Western Europe. If coal is to come out of German mines, then, as Rosenman points out, mining machinery must be shipped to Germany and German miners must get enough to eat. This raises political questions of the highest order that must soon be answered.

President's Rebuke
The second statement came from President Truman. Boldly and courageously, he rebuked the "irresponsible" critics of OPA whose real aim is to undermine all price control. We must do our part, the President said, in helping to prevent anarchy, riot and pestilence in the liberated areas, and that means an ever greater demand on our resources.

This will be welcome assurance to the world that America intends to participate, as we did after 1918, in helping war-wracked peoples back to normal life. It remains, of course, to find the means to carry out this declared policy. Good intentions without the stuff to back them up, are worse than nothing at all.

That is where the third statement serves a useful purpose. It comes from the special House committee which has been trying, soberly and seriously, to find out what is wrong with our food supply and why the black market should be such a menace at this time. The way the House committee, headed by Rep. Clinton P. Anderson, has operated is in marked contrast to the technique of the Senate Agriculture committee, which has served as a sounding board for special interests warring on any and all price control.

Recommendations
The House group presents a set of recommendations that could well form the basis for a new food policy. Above all, they stress the need of offering real inducements to farmers to produce more food. They emphasize the need, too, for overall coordination of the food program. The majority of the committee, however, does not go so far as the Republican members, who urge a single authority in charge of all phases of food production.

If the Rosenman report makes plain how tightly the economy of Europe and the world is tied together, the House committee shows how chiselers in one line can throw the whole price and supply structure out of kilter. Because black market operators have got hold of a considerable percentage of the beef that is sold, consumers are turning to poultry and therefore eggs which have been abundant may go into short supply.

The committee report tells of a black market operator who went to the owner of a flock of 3,000 laying hens with an offer of \$9,000 for immediate sale. If the hen population is decimated in that way, then we shall certainly create an egg shortage.

Once legitimate distribution has been disrupted and black market channels are set up, the report points out, "it becomes increasingly difficult to re-establish the normal channels of distribution and to make them subject to legal controls."

It is so hard for us to learn that, whether we like it or not, we are bound together in "one world," the prophetic title Wendell Willkie gave to his book. When individuals go against the rules designed to protect all of us, then all of us must suffer, and the same thing is true for nations in a broader sense—a lesson we are learning, once again, to our infinite sorrow.

Just Folks

By EDGAR A. GUEST

FISHING INCIDENT

At dusk I saw him come ashore
With twenty pickered or more.
But when I dared to question:
"Where?"

He answered with a glassy stare.
No single word escaped his throat.
He set to work to tie his boat.
As if he knew not I stood there
With impudence, inquiring:
"Where?"

Oh I was but a youngster small
Who had no fishing sense, at all.
I didn't know men hate to tell
The haunts they find where big ones dwell.

But I'm much older now than then.
I've learned the whims of fishermen.
And why, when strangers ask them,
"Where?"
They answer with that glassy stare.

HINTS AND DINTS

Sun sets tonight 7:44. Sun rises tomorrow 6:10.

It looks as if school teachers in Pennsylvania are to get better pay. They are entitled to it.

At this time millions more newspapers are being printed and read than ever before in history.

Carrying burdens makes the back strong.

Some people don't have to tell other people that they do not like them.

THE DIFFERENCE BETWEEN FAILURE AND SUCCESS

A large department store tried the experiment of discontinuing their advertising for 30 days. They found their loss to be only 15%.

But this 15% represented the difference between PROFIT and LOSS.

A National Advertiser discontinued advertising for one year and found business only 22% below normal.

But the 22% represented a sum equal to the dividends the company had paid for four years plus the interest on outstanding bonds for 3 years.

22% or even 15%, does not seem like much but it does represent the loss in volume and turnover for the non-advertiser or the spasmodic advertiser.

Successful advertising FOR ANY BUSINESS must be persistent and continuous.

Why is it that parades are always slow in getting started?

Dreams go by contraries as a man finds out after he marries one.

If your heart isn't in the work you do, your work will not be well done.

If you learn to like things that don't cost much you can keep your expenses down.

TAKING A LOAD OFF DADS' MIND

The head of the house was reading a newspaper article very carefully. Presently he remarked to his wife: "Do you know, dear, I think there is something in what this article says: that the cleverness of the father often proves a stumbling-block to the son."

His wife heaved a sigh of relief and said comfortingly: "Thank goodness, our Bobby won't have anything to fall over."

Without enthusiasm there can be no great endeavor.

A man's friends usually know his struggles while the rest of us see only his faults.

AIM HIGH—and keep striving to achieve your goal, or, sooner or later, you'll arrive on top.

A man can be accurately measured by what he does after he has met with a disastrous defeat.

Hez Heck says: "Time drags awful slow when you are waiting for dinner bell to ring."

Do not wait to show honor to the physician until you are taken sick to your bed.

THE GIRL WHO HAS "NOTHING TO WEAR"

My 18-year-old sister grouches constantly because she doesn't have more changes of dress. She thinks that she must have a new evening dress almost every time she goes to a dance. Perhaps you might convince her that boys are hardly conscious of a girl's dress other than the fact that it is becoming or unbecoming as the case may be.

Answer: The younger men are the less conscious they are of the details of a girl's clothes beyond their fit and general effect.

Placed between two girls one dressed like a millionaire and the other in the modest clothes of a working girl, a young man will turn to the one having the greater charm and appeal to him.

Moreover, a man in moderate circumstances is very likely to shy away from a girl whose wardrobe is elaborate to the extreme unless, of course, he knows that her own financial circumstances may well bear it, since he will have the bills to pay if he marries her. He may well know that such a woman will lead him too near the poorhouse with her extravagance and craving for clothes.

If your sister hesitates to wear a dress many times because she thinks it would indicate a lack of money, she is suffering from a false sense of values. Any man whose appraisal of her would be in proportion of her wealth should be sent on his way—the sooner the better.

Question: At an informal tea at which the hostess "poured," who greets incoming guests when there is no servant in attendance?

Answer: A member of the family should attend to this duty. If there is none present, the hostess should appoint a friend to do it.

Miss Markel will promptly mail personal answers to questions from readers enclosing self-addressed, stamped envelope.

Tomorrow—Making An Impression

The Parent Problem

By Garry C. Myers, Ph. D.

WHEN CHILD GOES VISITING

Except for the opportunity for the toddler to play with other children of his own age, it may be better not to go visiting with him. Yet it may not be convenient to go without him. A few mothers could not indeed, go out at all without taking him along; and mothers do need social contacts.

If the child is too young to creep or walk, his care anywhere may be easy, for short periods at least. In case he is between 10 and 18 months he may get into everything in your hostess's home unless you hold him or keep watching him every minute. You might take a play pen along with you, but it is not so easy to get it into a home.

So she called her hairdressing shop out on Connecticut avenue and asked for an appointment. The hairdresser's clerk said she was sorry but it would be impossible to take Mrs. Truman for another week. She doubted if time could be arranged even then.

At the expiration of the week Mrs. Truman phoned again. She got almost the same answer, but this time the hairdresser's clerk said she would try to fit Mrs. Truman in within the next fortnight. She suggested Mrs. Truman put her name on the waiting list.

On Waiting List
Mrs. Truman did put her name on the waiting list. She didn't say as thousands of less important clients say to harassed beauticians: "It does seem strange to me that you can't take me. Why can't you fit me in somewhere?" She merely took her turn patiently and did not once mention the appointment.

You forget I am the wife of the vice president of the United States! Naturally there is much discussion of the manner in which Mrs. Truman will conduct herself as First Lady. She is probably being given earnest advice at this very minute. "You must be like this."

"You must be like that."

It will be a pity if Mrs. Truman changes her personality in even a small way. She is an intelligent, unaffected, friendly woman. She will be both clever and wise if she stays as she is. She has come a long way as she is. And I hope she won't let anybody try to push her into a new mold.

One of her most charming qualities is her loyalty to old friends. How rare a trait is this in Washington! We want you to know we are going on just as we were, both Mrs. Truman and her daughter, Margaret. Have been phoning old associates.

Several times it has been necessary during the past week for Mrs. Truman to break engagements she had made when she was more deeply a private citizen than now. Each time when a change has been made Mrs. Truman has been sincerely distressed.

Uses No Makeup
Returning to the beauty parlor approach of Mrs. Truman—Mrs. Truman does her hair simply with a comb, part straight down the back and rolled in a pompadour over the ears and forehead. She uses a blue ribbon to brighten the white of her hair. She does not use a trace of makeup of any sort. Nor does she tint her nails.

Margaret Truman follows her mother's example and uses no makeup, not even lipstick. The beauty parlor people have tried unsuccessfully to persuade Miss Truman at least to try lipstick. But she has refused. She does not use any sort of bleach in her blond hair.

And now back to Mrs. Truman's public manner.

Perhaps she will not want to continue the rather formal method of communicating with the public which Mrs. Roosevelt managed so skillfully. I see no reason why she should be forced to do this if she does not want to. If it is her opinion, either Mrs. Truman or her husband will be forced to do anything.

However, it would be agreeable and certainly mutually profitable if now and then Mrs. Truman were to have informal tea for the women of the press like that with which Mrs. Roosevelt said goodbye to her public life of the White House.

So many people are anxious to have a picture of this interesting, kindly woman. Plans that seem interesting to Mrs. Truman herself will be of vivid interest to millions of the citizens of the country. Mrs. Truman will have to lead. It might be possible to arrange a news-cleaning house at the executive mansion where a competent secretary could give out such social and personal plans as Mrs. and Mr. Truman wish to reveal.

New First Lady Is Patient and Unaffected
Believe Mrs. Truman Will Not See Press
Differs From Mrs. Roosevelt On Publicity

By HELEN ESSARY (Central Press Columnist)

WASHINGTON, May 4.—Many pleasant Mrs. Truman stories are being told and retold around the capital. I'm convinced you'll have to work hard not to like the new First Lady and admire her modesty and sincerity.

There is the bit about Mrs. Truman's hairdressing and the beautiful crowd of people. This happened during the last weeks of Mr. Truman's term as vice president. Mrs. Truman needed to have her hair done. Most women do almost every day.

So she called her hairdressing shop out on Connecticut avenue and asked for an appointment. The hairdresser's clerk said she was sorry but it would be impossible to take Mrs. Truman for another week. She doubted if time could be arranged even then.

At the expiration of the week Mrs. Truman phoned again. She got almost the same answer, but this time the hairdresser's clerk said she would try to fit Mrs. Truman in within the next fortnight. She suggested Mrs. Truman put her name on the waiting list.

Pacific-Style Fighting To Be Displayed Here

By CAPT. ARTHUR WIMER
(Special Washington Correspondent New
Castle News)

WASHINGTON, D. C. May 4.—The people of New Castle will get a first hand look at Pacific-style fighting sometime between May 14 and June 30 when a unit of 39 Army men put on in the city a demonstration of what it takes to lick the Japs, the War Department announced today.

The show will be in connection with the Seventh War Loan Drive. Commencing May 14, 28 units of 39 men each will set out on a tour of 600 cities to present the "Here's Your Infantry" exhibition. The demonstration will show how combat patrols, armed with rifles, machineguns, mortars, and rocket launchers attack and destroy Japanese pillboxes. Each show will include 13 separate exhibits of infantry weapons, equipment and rations. The attack will be put on in ball-parks, football stadiums and parks in the various towns, with blank ammunition and explosive charges used to simulate battle noises. The men are all veterans of overseas action, some from the Philippines and from Germany where they were wounded.

The War Department is not ready to announce an exact date for the New Castle demonstration. The New Castle chairman of the bond drive, however, has been notified of a tentative date, and he will release details as soon as possible.

Discharged GI's Must Get License By Regular Method

PITTSBURGH, May 4.—(INS)—Returned veterans who have never held a Pennsylvania operator's license must get learner's permits, take driving tests and secure their licenses in the regular way. They are not eligible for the automatic renewal provided by the soldier's license bill no matter how much experience driving they had while serving in the armed forces, according to a statement from the Pittsburgh motor club. Club officials pointed out that the change in time allowed after discharge for license renewal has changed—under latest word from the attorney general's office ex-soldiers have one year to renew instead of the former 60-day period granted by the original reading of the bill.

Pvt. Tanner Has Been Released From War Camp

Mrs. Alice Tanner, of 418½ Bartman avenue, has received word that her son, Private Frederick Tanner, has been released from a German prisoner of war camp after being confined there over a year. He was captured at the battle of Anzio Beach.

Topsy-Turvy Season For Gardeners Seen

Early Things Very Early; Later Plants Will Be Very Late, Says Horticulturist

STATE COLLEGE, Pa. May 4.—(INS)—Pennsylvania flower growers face a "topsy-turvy" blooming season, according to Dr. E. I. Wilde, professor of ornamental horticulture at the Pennsylvania State College. "The early spring, coupled with late April's cold spell, will result in an erratic flowering schedule which may not return to normal until late summer or early fall," he predicted. Many May flowers bloomed in April, he pointed out, while some perennials are two to three weeks ahead of normal development. On the other hand, the cold weather has retarded fresh growth on trees, shrubs, and vines and, according to Dr. Wilde, may prevent normal flowering.

The Penn State expert said the average gardener "has nothing to worry about," despite seasonal upsets. He added a warning, however, to delay planting annuals until the last frost date in the individual locality.

Price Control May Continue After War

Prices Must Be Restrained As Long
As Commodities Remain Scarce,
Senator Says

WASHINGTON, May 4.—(INS)—Sen. Allen Ellender (D) La., said after a White House conference today that price controls and rationing probably will continue even after the final defeat of Japan.

The Louisiana senator said that President Truman was in agreement with him that there can be no relaxing of such controls after hostilities are ended in Germany and that they must continue so long as scarce commodities remain.

"Price control and rationing of scarce commodities probably will continue even after Japan is defeated," Ellender emphasized.

The senator headed another lengthy conference today on President Truman's schedule today.

Other congressional leaders included Sen. Carl A. Hatch of New Mexico and Sen. Joseph H. Ball of Minnesota and Rep. John D. Dingell of Michigan.

The president received William Green, head of the American Federation of Labor, and members of the AFL executive council.

Acting Secretary of State Joseph C. Grew and Assistant Secretary of State Nelson Rockefeller, just returned from the United Nations conference, were to confer with the president during the afternoon.

Other conferees included Gen. Alexander Vandegrift, marine commandant, C. Ed Lewis of the Veterans of Foreign Wars, Winthrop Aldrich, New York financier, Ambassador Lawrence Steinhardt and Maj. Gen. Philip Fleming, head of the federal works agency.

Rep. Dingell (D) Mich., one of the early morning callers, talked with the president about 20 minutes.

"It was just a couple of old friends getting together," Dingell said.

Ellwood Resident Suggests Cascade As War Memorial

Increasing interest in the subject of war memorials brought forth this completely new suggestion from a resident of Ellwood City who believes in being practical, esthetic and patriotic all at the same time.

"How about Cascade park? Call it Roosevelt Memorial park and let's get together to put up new buildings. I am sure the whole community would pitch in when the project is started. When the boys come back they could have swimming, dancing, boating, and a place to walk all in their own park. Cascade is the grandest place around here; let's make it over and be proud of it."

Very truly yours,

Mrs. Theodore Kuratsu.

Black Marketers May Hear Indictments By Federal Jury Today

PITTSBURGH, May 4.—(INS)—Secret indictments against western Pennsylvania's "black market" meat racketeers were promised to be returned today by a federal grand jury.

The identity of those indicted, Assistant United States Attorney W. Wendell Stanton told reporters, would not be revealed until they were arrested on federal bench warrants. Stanton said that he would go before a federal court judge today, at the request of the grand jury and petition the court to impose the indictments.

The grand jury investigating the alleged black market operations in western Pennsylvania was expected to recess today and reconvene possibly the end of next week to resume the probe. Stanton pointed out that the regular May federal grand jury would convene on Monday and remain in session two or three days. The grand jury probing black market activities is the November grand jury which was recalled to make a special inquiry of the illegal meat business.

Rather than have two grand juries in session at the same time, Stanton disclosed that it was decided to postpone the "black market" investigation until the May grand jury completes its duty.

German Guns Reported Trained On Copenhagen

NEW YORK, May 4.—(INS)—The only remaining capital ships in the German navy, the Prince Eugen and the Neuenburg, are standing by in Copenhagen harbor, with their guns trained on the city, Mutual Correspondent Birger Jacobsen reported from Stockholm today.

She leaned back in her chair in the police station, looking much more like a friendly next-door neighbor than someone who has had the awesome influence of the law behind her for over a year now.

Officer To Referee

Mrs. Duke's job is different from most, in that it is one of dealing with other people constantly in the combined capacity of officer-of-the-law and mother-confessor, with a little of the psychiatric and sometimes a bit of the referee thrown in. It is a process of meeting girls when they are in collision with the law and accepted standards, and trying to find out what sent them off on a tangent.

"New Castle has its problem kids, plenty of them. About ten per cent of them are the incorrigibles that have always been and always will be. The other 90 per cent, however, are often 'swell kids' who have gone a little wild either because they are in the brief 'wild oats' stage, or for one of two more serious reasons—too little home life or too much of the wrong sort."

Parents Get It

Explaining what she meant, Mrs. Duke dumped a large portion of the so-called juvenile delinquency problem in the laps of parents who have not given their children a home atmosphere which would be pleasant to live in, or who have neglected them during the sensitive and formative years, whether it was to do war work or to go to bridge parties.

"The other side of it," she continued, "is when the parents bear down too hard. Instead of trusting the children to be on their honor and to use their own common sense, they look on every move as a possible foreboding of mischief. Children need to be under wise authority, but they also should be allowed to develop their own feeling of responsibility."

Sometimes amusing things happen, such as a fist fight between two women in front of the post office, but basically the business is a serious one.

Delinquency Talk Is Bas

"It can't be explained away by talk about 'delinquency'; that's just a fad," declared the policewoman. "There are definite causes for it, both personal and social. If you could see some of the homes that children—yes, in this city—grow up in, you wouldn't wonder that some of them turn out the way they do."

And Mrs. Duke sees many of them, when she is out on call. With a background like that, the war conditions—absent husbands and fathers, and the fascination of uniforms—just give a new twist to an old story, in her opinion.

"As I said, there are the ones who deserve everything that's coming to them," Mrs. Duke summed up, "but when the kids need a break, I'm only too glad to help them get it; lots of times it's the first one they've had."

TUBERCULOSIS AND HEREDITY

Tuberculosis is not hereditary. Children of tuberculous parents may be perfectly free of it.

It is a catching or communicable disease. It passes from person to person.

If children of tuberculous parents are not exposed to germs of tuberculosis they will never get the disease.

Very often it happens that a person is infected and the disease is very mild. There are no signs of trouble and recovery is very prompt. A second infection may be serious.

Examination of school children is a very great help in finding cases of tuberculosis.

If a case is found there is a good chance for cure. There is also a possibility of protecting the other members of the family and the school.

Worship Money Less And Work Harder Urges Babson

By ROGER W. BABSON
(Copyright, 1945, Publishers Financial Bureau, Inc.)

BABSON PARK, Mass., May 4.—Mark Twain would say that money is something like the weather—everyone talks about it, but no one does anything about it. Every-

one wants money, only to exchange it for something else. Hence, few do anything to protect it. **What Is Money?** The simple fact is that money of itself is no good. Certainly this is true of paper money which has no use whatsoever except as a medium of exchange. Money is good only for what it can buy in food, clothing, shelter, education and happiness. Yet, it is very difficult to interest people in these five important things.

Labor leaders talk some about working conditions; but 90 per cent of this talk is about wages. They almost never discuss what wages will buy. Yet, while they get a 10 per cent wage increase, they lead their union members to adopt some policy which increases prices 15 per cent. Hence, in the end although the workers get 10 per cent more money, they really get 15 per cent less in food, clothing and shelter.

Most People Are Blind
Labor leaders are not the only ones to mislead the people by talking money, money, money. Bankers, brokers and others who sell securities are blind also. They say, "Give me your money to invest and I will make more money for you." So you let them invest for you. The stock you buy goes up in price or the dividend is increased and you have "made money." But are you any better off? No! During the time you "made money" the cost of living went up more.

But then come along the "smart boys" in Washington who are also blind and say: "Leave it to us. We'll fix prices right where they are so that when you get more money you can take this money to the stores and get more goods. Just leave it to us." Well, we have left it to them and they fixed the price of butter, sugar, canned goods and other foodstuffs. But with what results? We can't get any!

Why We Can't Get Goods
These Washington boys give us an excuse that these things are going to the army. Of course the army is getting foodstuffs, but are these soldiers getting any more than if they were home? Before the war you could get good stockings for \$1 at which the price was "fixed." Now you go to the store to get these same stockings and the clerk says: "Sorry, but we haven't got any of those stockings." She offers you

down just as sure as the other goes up. Jesus knew this when He told the world 2,000 years ago that the "love of money is the root of all evil."

"Well, what is the answer?" you ask. The answer is that we should

worship money less and work harder. There is only one way to get more food, clothing and shelter. That is by raising more vegetables in your back yard, making more of your own clothes and building more houses. Our standard of

living will never permanently be raised by getting more money. It will be raised only by thinking harder and working harder. I also get this answer from the Bible. Jesus said, "Give good measure"

Paul said, "Unless a man works he shall not eat." It is okay for everyone to have a higher standard of living and better working conditions; but it is very foolish to have MONEY which gives neither.

The safety glass used in windshields of warplanes is semi-tempered, so that a thinner glass will give strength equal to a heavier glass, permitting a heavier load of either gasoline or bombs.

Lt. Floyd Whitman On Same Carrier As Writer Ernie Pyle

New Wilmington Navy Man Returns From Pacific Where He Met Late Correspondent

Lt. Floyd Whitman, local Navy airman who has just returned from a seven-month tour of duty in the Pacific, was on an aircraft carrier which took the famous Ernie Pyle along for one of its operations in the Pacific theater of war.

"He was just exactly the way I thought he would be," Lieutenant Whitman explained. "A quiet little fellow, much better at listening than at talking. He chatted with everyone on the boat—asked us what we thought of the war, what our postwar plans were, and so on. He seemed to want to root around for himself, without any formality in the procedure."

Lieutenant Whitman is home on a 20-day leave, visiting his wife, Mrs. Joan Thompson Whitman, and son, Larry, of Euclid avenue, and his parents, Mr. and Mrs. Walt Whitman of New Wilmington. His work, while in the Pacific, was with radio, in connection with flight operations from a carrier. Some of the operations in which he took part were the Luzon landings, and the attacks on Iwo Jima and Okinawa.

A former student at Westminster college, the lieutenant has been in service since the fall of 1941. On completion of his flight training in July, 1942, he became a flight instructor at St. Louis.

Government Seizes Hard Coal Mines

Expect That Miners Will Return To Pits By Next Monday Morning

WILKES-BARRE, Pa., May 4.—(INS)—Pennsylvania's 72,000 anthracite miners today prepared to return to the pits Monday to resume under federal sponsorship the vital production they were unwilling to maintain without a new contract.

Following their creed of "no contract, no work," the United Mine Workers members laid down their picks and shovels when negotiations in New York between the operators and bushy-browed union president, John L. Lewis, bogged down over the question of travel time pay.

Up to and including today, the work stoppage has cost a nation at war well over three-quarters of a million tons of hard coal. This figure will reach almost an even million tons before work actually gets underway again under Federal control.

Solid Fuels Administrator Harold L. Ickes, acting on orders from President Truman, seized 363 Keystone state anthracite workings. This marked the third time since the Japanese sneak attack on Pearl Harbor that the government has been forced to take over operation of the mines.

Five More Bills Signed By Martin

HARRISBURG, May 4.—(INS)—Five bills had the approval of Gov. Edward Martin today including three measures governing the public school employees' retirement system.

Under the retirement bills, minimum monthly payments would be increased from \$20 to \$25 and eligibility requirements would include two years benefits.

The other bills would regulate the examination requirements for students of beauty culture schools and unify laws governing the apportionment of receipts and expenses from estates among tenants and remaindermen.

By Aleka Kirk And Darwin Slovon

Aleka Kirk Darwin Slovon

The two leading roles in the school play, "Youth Takes Over," will be played by Aleka M. Kirk and Darwin Herbert Slovon. In his character for the evening, Darwin has the same innocence and the same explosive effect on his social group as the redoubtable Henry Aldrich of radio fame. Aleka is "Snooky," his loyal champion, not without considerable merit in her own right.

The cast which will present the modern comedy, "Youth Takes Over," tonight at the Senior High school has been carefully selected by the dramatics coach, Miss Clara Hartsuff. The dramatic personnel follows:

Miss Gunther, Alice McGrath; Miss Stuckey, Marilyn Reeves; Mrs. Rathbone, Joan Cox; Mrs. Jones, Kaye; Mrs. Ebel, Betty Blunt; Snooky Phipps, Aleka Kirk; Dixie Brice, Mary Lou Branton; Mrs. Thurston, Sylvia Epstein; Peggy Brown, Donna Jean Dugan; Betty Brown, Josephine Marzel; Gloria, Mary Buz; Barbara, Peggy Lamore; girl in pink sweater, Marjorie Crawford; girl in blue sweater, Barbara Harcar; girl in green sweater, Jackie Knodel; girl in lavender sweater, Peggy Wilkison; girl in yellow sweater, Mary Shuttlesworth; Pop, Crox; Peter, Dr. Peterson; Ralph Shiner, Mr. Andrews; Jack Fisher, Swinburne Jones; William McAnallen, Albert Williams; Darwin Slovon, Gus Landers; Charles Shaw, Red Barry; James McClinton, Leona Ellis; James Conan, Henry William Wallace; the postman, Fred Duff.

In addition to his parents, he leaves five brothers: S-Sgt. Raymond E. Brown, in Germany; Cpl. Wesley C. Brown in Germany; with the Q. M. T. R. Co. of the Third Army, and Theodore, Dale and Gaylord at home; and five sisters, Annie, Frances, Mary Jo, Shirley and Dolly Brown.

If one of two gears of nearly equal size wears out, usually the other one also needs to be replaced. When the gears are of unequal size, the smallest one usually wears more rapidly than the larger one. Money can be saved by replacing only the smaller.

The Nazis were surrendering by the tens of thousands.

Two Wehrmacht commanders, General Montefel commander of the Third Panzer army, and General Von Tippelskirch, who commanded the 21st German army on the Russian front, surrendered with most of their troops.

The British 11th Armored Division drove north-northeast toward the Kiel canal, arranging the surrender of numerous towns and villages.

The Kiel naval base and the naval base at Flensburg were declared open cities by the Germans and are to be surrendered without resistance.

The British Fifth Division captured the seaplane base near Laebeck bay.

Extend Contact
British and American forces in north Germany meanwhile established firmer contact with the Russians along a 30-mile stretch from Wismar on the Baltic, southeast of Wittenberge.

While the Nazis were surrendering in mass in the north, the U. S. Seventh Army, despite stubborn opposition at some points, captured the Austrian mountain city of Salzburg and infantry forces drove south through the Brenner Pass into Italy where a linkup with troops of the American Fifth Army was imminent.

Gen. George S. Patton's Third Army closed in on the Austrian city of Linz from points five miles distant in a continuance of a drive toward a junction with Russian forces.

Capture Prison Camp
General Patch's troops captured another prison camp at which they liberated two Russian generals, General Vishinsky, commander of the 32nd Soviet army, and General Tonkogenov, commander of the Soviet 141st Infantry. General Vishinsky had been held for a time in the infamous Dachau concentration camp.

In closing in on Linz, American tank forces reached the town of Garmasatteten, five miles to the northwest. Heavy snowstorms impeded the progress of the Americans.

At the western end of General Patton's front enemy resistance was described as negligible to light.

LETTERS TO THE NEWS

(Letters intended for this column must be signed with name and address of writer.)

May 2, 1945

Mr. Fred L. Rentz,
The New Castle News,
New Castle, Pa.

My Dear Mr. Rentz:
I am happy to report that the United National Clothing Drive in Lawrence County was highly successful. Working on a quota of 75,000 lbs. we packed and shipped 58,477 lbs.

One of the things that assured us of success in this important collection was the help that we received from The New Castle News. The two or three editorials, the faithful and expert reporting of your Mr. Allen, and other help that came from your company was altogether an important contribution.

I wish that you could have seen the fine clothing that was turned over to us for this drive. Most of it was quite clean and much of it was new. We discarded less than three hundred pounds as unusable.

Thank you for helping Lawrence County to contribute so generously.

S. G. McCRACKEN,
General Chairman

S-Sgt. Wm. Broad Has Arrived Home

Local Soldier, Liberated From Nazi Hospital At Meiningen, Home On Convalescent Furlough

S-Sgt. William H. Broad, son of Mr. and Mrs. Henry Broad, of R. D. 2, who had a miraculous escape when the B-17 bomber, on which he was serving as turret gunner, exploded flying between Trier and Saarbrücken, on November 9, 1944, has arrived at his home here after some trying experiences.

Sgt. Broad was taken captive by German civilians and turned over to German military authorities. He was sent to Meiningen, where he received treatment in a fairly good German hospital, which was staffed by British doctors, also prisoners.

He was liberated on April 5 when Yank forces captured Meiningen and was flown to the United States, arriving in New York on Tuesday.

He will return to Atlantic City on May 17, at the expiration of his convalescent leave, and will undergo an operation on his arm here.

Sgt. Broad, it will be recalled, left here with the 190th Field Artillery, and later transferred to the Air Forces. He had been in England for over two years.

Eisenhower Sends Congratulations To Marshal Alexander

PARIS, May 4.—(INS)—A jubilant message of congratulation to "Dear Alex" from "Ike" was dispatched today by Gen. Dwight D. Eisenhower to Field Marshal Sir Harold R. L. G. Alexander for the latter's complete triumph in Italy.

The message said:

"Dear Alex: You and your great command are the toast of the United Nations. Your brilliant success should give even the stupid German final proof that he is finished."

"I am happy for you and for all our peoples. It looks as if you and I could soon keep our long-standing engagement to join up our forces in the heart of the enemy's homeland."

"My very best to you and to my old friends serving on your all-star team."

Mystery Blast Off East Coast

PHILADELPHIA, May 4.—(INS)—Federal officials today continued their search for the source of a "flash" or an "explosion" apparently originating off the coast of southern New Jersey, and reported to have been seen or felt as far south as Annapolis.

Naval officials reported they had been trying to place it from as early as 3:30 a. m., when telephone reports were first received.

Philadelphia's electrical bureau was swamped with telephone calls and various police stations up and down the Atlantic coastline in Delaware, New Jersey and Maryland said they too had been questioned by persons reporting to have seen a "red glow" in the horizon.

The Federal Bureau of Investigation at Philadelphia said it had placed calls to war and explosive plants in the area, but had been unable to find any trace of an explosion.

Quaker City residents told telephone operators they saw a "flash" in the sky and then felt buildings in which they were located shake as though from an explosion.

HEAVY REGISTRATION

Wampum made good use of the special registration day on May 2, there being 75 registrations, an unusual number, caused no doubt by the local option fight in the borough. Of the 75, 57 were Democrats, 17

Republicans and one Prohibitionist. In connection with the local option fight a rather interesting point of law has arisen. Under the law covering men in the armed forces voting it provides that any one may ask that a ballot be sent to a service man or woman for general or municipal elections but in a primary the service man or woman must request it themselves.

Thus far 34 requests have come in from Wampum for ballots for service men or women but none have come from men or women in the service.

The question is this: In view of the fact that the local option issue will be settled at the primary, does this not constitute an election? Once voted upon June 19 there is no further balloting on it in November. Service men or women in the South Pacific or in Germany or on the island of Corsica might not know the primary has been set forward to June 19 instead of September as it usually was in municipal election years. Further, they may not know the issue is before the voters. There are over 150 men and women in service from Wampum and adherents of both sides of the question feel the service men and women should be given an opportunity to vote upon the issue.

Ex-Service Men Win Key Spots

Al Denton of Detroit And
Mickey Livingston Of
Chicago Cubs Are
Examples

SOUTHWORTH BANKS ON SCHOENDIEST

NEW YORK, May 4.—Honorable discharged veterans held key positions in the 1945 pennant race although the draft boards continue to take about eight men for every former athlete returned.

Detroit's Al Denton is one of the most conspicuous of the ex-service men able to step back into big league stride.

The 32-year-old Oklahoma right hander shut out the St. Louis Browns in his first start after receiving his Navy discharge and whipped Cleveland next. In 18 innings Denton has allowed only six hits to take his place as a valuable complement to the pitching team of Dizzy Trout and Hal Newhouse.

Livingston Helps Cubs

Catcher Mickey Livingston came out of the Army in November and took control of the Chicago Cubs receiving in spring training, working all but one of the games to date. The former Phil hit .273 against strong western pitching.

Harry "Peanuts" Lowery, Cubs center fielder, shows promise with a .250 batting average. He came out of the service in midwinter.

Billy Southworth is banking heavily on another former G.I. Albert "Red" Schoendienst, who was heralded as a sensation before his

minor league career was halted at Rochester last spring by the Army. Schoendienst opened the season in left field although he always had played shortstop. He took over the infield job Saturday when Marty Marion suffered a sprained ankle.

Ferriss Beats Athletics
The Boston Red Sox pulled out of their alarming nose dive shortly after Jack Tobin recovered from a finger injury and was able to go to third base. A brother of the Braves' Jim Tobin, young Jack was discharged from the Navy after two and a half years' service and created a mild sensation at the Atlantic City training camp.

Latest Red Sox surprise is Dave (Bo) Ferriss, discharged from the Army Air Force in February, and who broke in yesterday with a 2 to 0 victory over Philadelphia.

Van Lingle Mungo wasn't able to win one of his first three starts for the New York Giants, but Mel Ott is counting heavily on the former soldier. He actually hasn't pitched a bad game. Little Vic Lombardi of Brooklyn stopped the Giants on relief after coming to the club from the service.

WAR NOT TO HALT FAIR AT MERCER

Dates for the Mercer Fair have been set as August 21 through August 24, according to Secretary of the Board J. P. Orr.

During the meeting this week the board decided to secure a complete new midway, to revise and bring up to date the premium list for the fair, and to secure the best grandstand attractions the fair has ever had.

Church Golfers Get Rained Out

Opening Matches In Church League
Called Off By Rain And
Cold Weather

New Castle church golf league players were disappointed last evening when rain interfered with the scheduled opening of the 1945 season at Castle Hills golf course. The matches scheduled for the opening night will be played at the end of the first-half, it was officially announced from the office of the president, Morgan Jones, Sr.

The league hopes to get under way next Thursday with the regular schedule being maintained, the games being listed for May 10 being the official games for next week.

VITAL OXYGEN
ATLANTIC CITY, N. J.—(INS)—Oxygen seems unimportant—until you're out of it. Staff Sgt. James W. Cavanaugh, Manchester, N. H., B-17 gunner, at the AAF redistribution station No. 1 reported a flak burst over Hamm, Germany, knocked out the oxygen system and the flight engineer died of anoxia—lack of oxygen—before the pilot could dive to a lower altitude.
